Dr. Wm. Brewster.
Dear Sir.

Mrs. Birtwell's mother is too ill to write to you so I send you herewith the Mss. of my husband's book.

These are all of the Notes except the New Mexican Field Journal, 1899, 1900, 1901, which is not indexed.

I made an error in giving Dr. Thayer the limit of the completed work. The

last bird fully discussed in Callipepla gambelii (295.)

I shall be very glad to send the Mss. Field Notes if wanted, as soon as the editor can use them.

Very respectfully

Olivia Mastin Bintwell.
